

November 07, 2025: On My Verdict

I am writing to record that as soon as my wife fell asleep during this movie, the engine sounds began to 'keep me company' in very threatening ways that 'spoke' to imply that they are contrary to my own interests as an American citizen.

I am writing as a trained legal professional - a defense attorney that is learned in the art of proof beyond a reasonable doubt.

I am posting my verdict publicly for the world to see: Guilty.

Donald Trump and Elon Musk are guilty of committing treason against the United States of America by holding an American citizen within a psychological war that threatens him inside and outside of his home.

I am posting my verdict publicly for the world to see: Guilty.

Donald Trump and Elon Musk have used their placement within American to overthrow the lawful and law-abiding elements of the United State government.

Our congress has been 'deadlocked' in a 'stalemate' for 39 days now and our government remains 'shut down' and unfunded by the intentional actions of our Congress.

I am presenting this information publicly and I am asking that the Justice Department set aside their 'policy' that "a sitting president cannot be criminally prosecuted" in order to bring about genuine justice in our current American dilemma.

I have been held in this state for four years now.

I have contacted the FBI, the Texas Rangers, the Secret Service, the Texas Governor, the White House, the United States Congress, the Texas Congress, the San Antonio Police Department, and our local representatives - to no avail.

I am presenting this matter for public review and I truly hope that honorable people within the Department of Justice set aside this foolish policy and indict Donald Trump along with Elon Musk for crimes that they are committing against my home.

Thank you for your immediate attention to this important matter.

Kindest regards,

Chris Carlin
